## **DETAILED ACTION**

This office action is in response to amendment filed May 3, 2010. Applicant amended claims 9, 22, 35 and canceled claims 11, 24 and 37. Claims 9, 10, 12, 13, 22, 23, 25, 26, 35, 36, 38 and 39 are still pending.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9, 10, 12, 13, 22, 23, 25, 26, 35, 36, 38 and 39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Garcia et al. (US 2005/0256766 A1) in view of Pisaris-Henderson et al. (US 2004/0162757).

Regarding claims 9, 10, 12, 13, 22, 23, 25, 26, 35, 36, 38 and 39, Garcia teaches causing a bidding interface to be displayed *to at least two bidders* on at least one display per bidder (see [0065]), the bidding interface comprising functionality to allow a bidder to bid for a search string and user attribute combination; wherein the search string is input by a user and the user attribute is an attribute of a user who input the search string (limiting parameter, such as geographic identifier, IP address etc as specified by a user or by a computer (cookie) (see [0061]-[0066], [0075])); receiving the search string and user attribute and generating at least one search result in response to the search string and displaying the advertisement correlated with the winning bid together with a search result to the end user; receiving at least one bid for the search string and attribute combination; wherein determining the winning bid is based on a monetary amount of

the bid (see [0064]-[0073], [0079]-[0085]). Garcia does not teach *causing the bidding interface to display at least some of the bids that have been received from a plurality of bidders for the search string and receiving at least one updated bid responsive to the displayed bids*, it is taught in Pisaris-Henderson (see fig. 6). It would have been obvious to one or ordinary skill in the art at the time of the invention to display Garcia other advertiser's bids for the search string and attributes, such as the top five bids, as in Pisaris-Henderson in order to help the advertiser determine a bid amount to enter.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 9, 10, 12, 13, 22, 23, 25, 26, 35, 36, 38 and 39 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
